

## [Today's Meet](#)

## [Chrome Web Store](#)

### [Extensions](#)

Extensions are extra features and functionality that you can easily add to Google Chrome. By using extensions, you can customize Google Chrome with features you like, while keeping your browser free of things that you don't use.

### [Adblock](#)

The original AdBlock for Chrome. Block all advertisements on all web pages, even Facebook, Youtube, and Hulu.

It works automatically: just click "Add to Chrome," then visit your favorite website and see the ads disappear!

### [Announcify](#)

Announcify reads out loud every website you want. For example, if you're too tired but still need to study one more Wikipedia entry, Announcify can help your tired eyes relax.

### [Explain and Send Screenshots](#)

Capture a webpage, write text, arrows and circles on it and share it with a direct link to the screenshot without a frame!

### [Google Docs Quick Create](#)

**Create new Documents for Google Drive from your browser bar.**

### [Google Dictionary](#)

**View definitions easily as you browse the web.**

### [Goo.gl URL Shortener](#)

goo.gl url shortener is an extension which allows you to shorten the current website URL with the Google URL Shortener service <http://goo.gl/>

### [Instapaper](#)

**Instapaper browser extension to save links for offline reading.**

Instapaper is a simple tool for saving web pages to read later on your iPhone, iPad, Android, computer, or Kindle.

This browser extension may be used in place of the bookmarklet to save articles directly into your Instapaper queue.

### [Plus for Gmail](#)

Get desktop notifications, read, listen, archive or delete emails without opening a Gmail tab & easily manage multiple accounts

### [Readability](#)

Readability is a web and mobile app that zaps clutter and saves web articles in a comfortable reading view.

The official Readability extension for Chrome provides a better way to read online, turning any web page into a comfortable reading view right in your web browser.

### [Tab Carousel](#)

Cycle through your Chrome tabs automatically. Great for monitoring information on a TV with a computer attached.

### [Apps](#)

With apps for Google Chrome, you can do things like create documents, edit photos, and listen to music. They're like desktop software programs you install on your computer. The main difference is that you use apps directly within your browser. If you use Gmail, Google Maps, or sites like Pandora, you're already using apps.

### [App Launcher](#)

### [Chrome Remote Desktop](#)

Access other computers or allow another user to access your computer securely over the Internet.

### [Hootsuite](#)

Publish updates, track activity, and analyze results across multiple social networks including Twitter and Facebook.

### [Hangouts](#)

Hangouts brings conversations to life with photos, emoji, and even group video calls for free.

### [Remind](#)

A safe way for teachers to text message students and keep in touch with parents. Free.

### [Class Dojo](#)

Behavior management made easy, positive and fun. Join thousands of teachers already using ClassDojo - for free!

### [Lucid Press](#)

A web-based tool that helps you intuitively produce stunning print and digital newsletters, flyers, brochures, photo books and more.

### Changes to Google Docs
